58 mph+ within 3 miles

The strongest storms near your home

May 25, 2025	1.75" hail (golf ball size) within 3 miles of your home (1.25" within 1 mile) · date of loss	MEDIUM
Nov 2, 2024	75 mph wind within 1 mile of your home	HIGH
Apr 27, 2024	93 mph wind within 3 miles of your home	MEDIUM
Jun 11, 2023	2" hail (hen egg size) within 3 miles of your home (1.5" within 1 mile)	HIGH
Feb 26, 2023	107 mph wind within 1 mile of your home	HIGH

What this means for your roof: hail around 1 inch and larger, and winds of 58 mph and more, can damage shingles, gutters and siding, and the damage is often hard to see from the ground. Insurance policies usually set a time limit for claims after a storm.

NOTES FROM YOUR ROOFER

Roof inspection booked for Monday at 10 AM.
